

## **Introducing the HairZing! A Revolutionary New Hair Accessory To Create Over 2 Dozen New Styles in Seconds!**

**An Innovative, Patented and Stylish Accessory to make Styling your hair a Snap!**

**New York, NY—** Named as one of the Accessories Council's top 10 most innovative items for Spring of 2007, the HairZing is a unique, patented design that is ideal for all hair types – hair can be thick, thin, long, short, curly, braided in cornrows or have a mind of its own. HairZing will work for you!

The HairZing is completely handcrafted by beading artisans, the beads and bands appear "magically" suspended in your hair. Designed with great attention to detail by veteran hair accessory inventor, Francesca Kuglen, the HairZing was created to be the most comfortable hair accessories that you will ever wear!

HairZing uses coated metal combs that are curved for comfort and engineered not to get stuck in your hair. The combs are attached with beautiful beads strung on a durable, nearly impossible to break resin. The result is a stylish and functional accessory that is very easy to use and allows you to pull hair back in over two dozen ways!

For the HairZing team, it wasn't enough to create a great looking and functional product, it was important to make it in a way that would help change society. Instead of conventional factories, HairZing employs XX women, in China and Africa....continue with story....
